FOR SALE—Navajo rugs, Reservation prices. Mrs. Seeman, Miner office.

T. A. MILLS HERE ON BUSINESS TRIP

T. A. Mills, who is associated with a number of Bradford, Pa., and Buffalo, N. Y., mining men in the development of mining properties at Oatman and Bill Williams Fork, was a pleasant caller at the Miner office last Monday. Mr. Mills was on his way from Oatman to Bouse, where he will look after his mining property.

Mr. Mills was a resident of Bradford during the early life of that important city, having held a route on the Bradford Daily Era. The mining editor of the Miner printed the first copies of the Daily Era and was for some time oil well reporter on the journal. Bradford, at that time was the ideal oil town. Its first winter as an oil center brought adventurers from all parts of the world. A bed on a billiard table in the all night saloons was worth two dollars, and a warm spot on the floor cost one dollar. Rooms in the hotel shacks cost from \$5 to \$10 per night, no charge being made for the other occupants of the blankets—bedbugs and greybacks. Eats were not so high, because of the fact that towns a distance of twenty or thirty miles from the field were furnishing meals for 25c, and board and rooms at second class hotels could be had for \$3 and \$4 per week. It was getting up in front that cost the money.

Mr. Mills has been in the mining game many years, having had mining interests in many parts of the west, his latest venture being in the Goldfield country, of Nevada. The other men associated with him believe that they are in on some good things and will soon have matters under way for a big development campaign.

DARDANELLES SHIP CARLOAD OF ORE

A forty-ton carload of Dardanelles ore is on the way to the Humboldt smelter, the ore having a value of between \$40 and \$50 gold and silver to the ton. This is the first ore to be shipped from this county to the smelter since it was taken over by the new corporation.

The Dardanelles has its grading almost complete and the new machinery will be installed shortly and the work of sinking to the 500 level under way. This shaft is to be located about 200 feet north of No. 1 shaft, and will enter the big mineralized zone that was found in the drifts from the old shaft. A road has been graded up to the new shaft, the machinery on the dump and everything put in readiness for the assembling of the machinery. This machinery is the best of its kind in the state and will make the sinking of the shaft to any depth desirable a possibility.

Operations in the old stopes will be continued, shipments going out to the smelter regularly, later to be increased when the new shaft enters the ore body. E. Ford Eaton is looking after the affairs of the company and is meeting with great success.

If you suffer from biliousness, constipation, headache, nervousness, low complexion, loss of appetite, bad taste in mouth, Tanlac and Tanlac Vegetable Pills will certainly straighten you out. Kingman Drug Co. (Adv.)

HAL BEDINGER PASSED AWAY AT PRESCOTT MONDAY

But a few months ago Hal Bedinger was a frequent, welcome visitor in the business houses of Kingman, making his rounds on the delivery wagon of the American Railway Express. Now he has passed the portals from this life to the next and he is and will be greatly missed. Hal died Monday and was laid to rest in Prescott Wednesday afternoon.

Among all living things, Jumbo, his horse, will probably miss him most—especially when the heat and the flies get bad. For Jumbo without doubt remembers, if horses remember, how his master used to care for him on these occasions. And that but typifies the soul of the man, for Hal was that way to everyone—always willing to do a favor, kind and considerate always.

Hal started to fail just five months ago and the end came fast.

He is survived by a brother, Dr. George Bedinger of Flagstaff and a brother and sister in the east.

EYES OF THE WEST ARE ON CONGRESS

We are pleased to note that Gov. Campbell has told the republican congress that the west and southwest has its eyes upon them and they will be held accountable to the people for failure to provide means for the carrying on of the great reclamation schemes that this country so badly needs. Gov. Campbell knows the needs of the country and we feel sure that he did not hesitate to inform the men who have the engineering of measures in congress of the wants of the country and the great loss the country will sustain if the money is not forthcoming for the building of dams, the impounding of water and the generation of electricity.

Lang's has it, on June 18 and 19th.

W. A. EPPERSON OUT FOR SUPERVISOR RACE

W. A. Epperson this week announces his candidacy for the office of supervisor from District No. 2, which embraces Kingman, Chloride, and a portion of north of the river, as well as Yucca and the country to the south. Mr. Epperson has been a resident of the county the past 20 years, having been engaged in the cattle business. He owns a ranch north of Chloride, where he has been living with his family the past several years. He is energetic and capable and one of the best cowmen in the county, and among the cowmen, where he is best known he has many friends.

CHOCOLATE SHOP OPEN FOR BUSINESS

The Chocolate Shop, Kingman's new confectionery and ice cream parlor opened for business last Tuesday. The Chocolate Shop has been remodeled and under the management of J. W. Parks bids fair to being one of the most popular places in town. The interior has been remodeled and has a very attractive appearance and is one of the coolest places in town during the hot weather.

Mrs. Yolande Fianto Nair believed she was the wife of Omega B. Nair. She wasn't. A former wife in good legal standing paved the way and a decree of annulment of marriage was granted.—Arizona Republican.
